# Bullet Journal Rapid Logging Cheat Sheet

## Topics and Pages Numbers

Add a topic (short descriptive title) on the top outer corner of the page. Title and number your pages before you add content.

## Bullets

The Bullets will help organize your entries into three categories: Tasks, Events, and Notes.

<table>
<thead>
<tr>
<th>Tasks</th>
<th>Events (date-related entries that can either be scheduled or logged after they occur. They should be as objective and brief as possible)</th>
<th>Notes (entries that you want to remember, but are not actionable.)</th>
</tr>
</thead>
<tbody>
<tr>
<td>• = Task</td>
<td>Events - &quot;O&quot;</td>
<td>Notes - &quot;-&quot;</td>
</tr>
<tr>
<td>X = Task Complete</td>
<td></td>
<td></td>
</tr>
<tr>
<td>&gt; = Task Migrated</td>
<td></td>
<td></td>
</tr>
<tr>
<td>- = Task Scheduled</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

## Signifiers

- Priority - 
- Inspiration - !
- Explore - 🌐

## The Modules

Modules are methods designed to help collect and organize specific entries. There are four core modules:

### The Index

Add the topics and their page numbers to the Index.

- **Topic Name:** 5 (one page topic)
- **Topic Name:** 6-12 (consecutive spreads)
- **Topic Name:** 13-15, 24-28 (recurring collections)

### The Future Log

For items that either need to be scheduled way in advance or things that you want to get around to someday.

### The Monthly Log

The Monthly Log helps you organize your month. It consists of a calendar to schedule and/or record events and monthly tasks (left page) and a task list (right page).

**How to set up the monthly log:**

1. Title the page with the current month’s name.
2. List all the dates of that month down the left margin, followed by the first letter of the corresponding day.
3. Add Signifiers to the left.
4. Schedule events and tasks on the left page.
5. Add list of both Tasks that you want to tend to that month, and unfinished Tasks that have migrated from the previous month to the right page.

### The Daily Log

How to set up the daily log:

1. At the top of the page, record the date as your topic.
2. Rapid Log your Tasks, Events, and Notes as they occur.
