

Get your Garage Organized

Step-by-Step

Step 1

Sort through all items and decide what to keep, donate or toss.
Print the signs on the following pages to clearly mark each pile.

Step 2

Organize the items you want to keep into categories.
List the categories and the items in each category on the next page.

3

Step 3

List the ideal storage solutions for each category.

Go back to the lists and add possible storage solutions for each category.

4

Step 4

On the next page, list the storage solutions you would like to buy and see if they are within your budget.

Storage Solutions

Item	Store	Price per Unit	Number of Units	Total Price
Total Price				

5

Step 5

Decide which storage solutions you will purchase. Map out each storage item on the next page to see where you will place it and how many of each item you can fit in your garage. Update the list of items you will buy if necessary.

Sketch of my Garage

Step 6

Use the storage solutions you have and purchase what you need.

Step 7

Pack everything in its designated spot.

Step 8

Make an inventory. Right now you remember what you put where but if you are anything like me you won't remember a few months from now.
